As a sole owner of a company I was looking for someone to come in and work with my management team and me to help us get to the next level. Wayne has given me a new way to look at the company and a new direction and appreciation of working on the company and not for the company.

Wayne has worked with our team, both as a group and individually, to help us identify goals and objectives. These goals and objectives have, and will continue to take us to the next level to strengthen our company as a leader in the construction industry, to make it attractive to centers of influence and prospective clients, and to prepare the company to be seen as an enjoyable place to work and a company to be watched in the future.

His focus has been to maximize value for stakeholders and to create “curb appeal” internally and externally. As a result of more than a year of preparation, our company is an attractive, profitable, well-documented, and smooth-running business.
